SUMMARY

3D Artist with nearly 5 years of experience creating game-ready assets including characters, environments, and hard-surface models. Skilled in Blender, Substance Painter, Unity, and Unreal Engine. Passionate about producing high-quality real-time assets and continuously improving workflows for game development.

EDUCATION

Universitas Pamulang (UNPAM)

Bachelor of Informatics Engineering (GPA: 3.4)

South Tangerang, Indonesia

Graduation Date : January 2027

- Organizations/Awards: Honorable Mention – National Student Competency Competition (LKSN) 3D Game Art (2021), Participant – 4th Southeast Asia Creative Camp: Virtual Reality, SEAMEO SEAMOLEC (2019).

WORK EXPERIENCE

PT. Falah Inovasi Teknologi

3D Artist

Indonesia

2022-Present

- Developed 500+ production-ready 3D assets, including hard-surface models, environments, and characters for games, simulations, and interactive applications.
- Created optimized 3D assets through modeling, sculpting, UV mapping, texturing, lighting, rendering, and animation while maintaining visual quality and real-time performance.
- Collaborated with cross-functional teams of 10+ 3D Artists, programmers, concept artists, and project managers across 20+ projects to deliver high-quality digital products.
- Utilized industry-standard software including Blender, Photoshop, Substance Painter, Unity, and Unreal Engine throughout the complete 3D production pipeline.
- Consistently delivered assets on schedule while meeting project quality standards and technical requirements for implementation into game engines.
- Prepared and optimized 3D assets for real-time applications by considering polygon efficiency, asset structure, and technical requirements for game engine implementation.

LEADERSHIP EXPERIENCE

PT. Falah Inovasi Teknologi

Co-Project Person in Charge (Co-PIC)

Indonesia

2023-2024

- Entrusted as Co-PIC to coordinate a 3D team consisting of 10+ 3D Artists, ensuring asset production progress aligned with project targets and quality standards.
- Monitored 3D asset development progress, provided coordination and support to team members, and assisted in resolving production challenges.
- Collaborated with PICs from other departments, including programmers, concept artists, and project management teams, to ensure effective cross-department coordination.
- Assisted the Project Lead in tracking project timelines, maintaining output quality, and supporting on-time project delivery.

SKILLS & INTERESTS

Skills: Hard Surface Modeling | Character Modeling | Environment Art | Digital Sculpting | UV Mapping | Texturing | Lighting | Rendering | Animation | Blender | Unity | Unreal Engine | Substance Painter | Adobe Photoshop | Marmoset Toolbag | Git | HTML | CSS | JavaScript | PHP | MySQL | Microsoft Office

Interests: Game Development | 3D Character Art | Environment Art | 3D Animation | Virtual Reality (VR) | Technical Artist.
